U4	SEE SHEET 2	METER-L GND	METER-L	METER-R GND	METER-R	METER_DR	SEE SHEET 2						SEE SHEET 2						

NOTE: THE CIRCUIT FOR U4 (WHICH IS FOR METER-LEFT AND METER-RIGHT) HAS PART NUMBERS WHICH DO NOT FOLLOW THE NORMAL 100, 200, 300 MACKIE WAY, SO THIS PARTICULAR CIRCUIT IS SHOWN ON SHEET 2

NOTE: LINE-13 TO LINE-24 CONNECT TO J3
RET-1 TO RET-12 CONNECT TO J1
DR1 TO DR8, AND METER_DRV CONNECT TO J13
DR9 TO DR12 CONNECT TO J12
SEE SHEET 2 FOR CONNECTOR DETAILS

About this table:
The circuit is repeated 12 times on the CODEC board, so instead of wasting paper and disk space, this table was created. It shows the difference between the reference designators and the main points from one circuit to the next. In most case, the reference designators vary only in the hundreds, for example R103, R203, and R503 etc.
The "Parts H" and "Parts F" do not follow this rule, and the following example may help:
Using the U103 circuit shown, find C4 (circled under Parts F). The reference designator for the same part used on the U403 circuit is C34, and for the U703 circuit it is C46, reading in the column below C4.
Note that all the parts values remain the same from one circuit to the next, ohms, farads, pica-noodles, foot-lamberts etc.
